2017

Mrs. Jenkins' Corner

This month S.H.E. students will start the annual standardized testing. These tests are given to measure the students' academic progress. The schedule for this year's tests is below. If you would like more information regarding any of the tests that your child will be taking please call the school (228) 467-4655.

Parent Tips

- Discuss with your child the importance of all of his or her academic skills and personal attributes. Give examples of his or her strengths in different areas, and let him know about situations in your own professional and personal life that require a variety of skills.
- Give some thought to your own experiences with testing as a student and consider what messages you are sending to your child about testing. If you had negative experiences, you may unintentionally transfer your own anxiety onto your child. Similarly, if you had positive experiences your child may feel anxiety over performing as well as you did.
